

# ORAL HEALTH FOR ALL

## What Are You Facing?

Lack of access to oral health care means things like untreated pain, delayed care, missed days of work and school, and more expensive treatments down the road.

What are you experiencing? What's keeping you from receiving the dental care you need?

# ORAL HEALTH FOR ALL

We've known for a long time that part of a whole, healthy individual also means having a healthy mouth. This is why we've launched *Oral Health for All*, a multi-year campaign to raise awareness and build long-term support for expansion of oral health benefits for all people, regardless of age, income, race, and gender.

**Your voice is critical** to showing why everyone needs affordable oral health care.
